COMPANY PROFILE:

Affordable Concrete, LLC is a site preparation, construction, and civil services company founded in 2005. Based in Denver, CO, we serve a variety of governmental agencies from local, state and Federal agencies (including RTD, USAF, City and County of Denver, Cities of Lakewood, Arvada, Aurora, Broomfield, Thornton, Universities including , CU Boulder, Metro State, CU School of Mines, and CU Denver) and private commercial corporations, national chains, national property management groups and big box stores. Our goal is partner with our clients, to listen, identify challenges, implement best practices and metrics, and deliver beyond expectation. This starts with exceptional personnel, decades of experience, unparalleled safety standards and humble understanding that there is always more to learn.
