Affordable Concrete LLC was developed in 2005 as a full-service General Construction Company with Specialties in concrete, commercial and office renovations, asphalt, civil, and demolition services. Over the years we have grown to be a successful full-service construction company by staffing all our projects with exceptional skilled personnel that have decades of experience, unparalleled safety standards, and a humble understanding that there is always more to learn.

Our core value is to partner with our clients, to listen, identify challenges, implement best practices and metrics, and deliver beyond expectation.

We have experience performing as a general contractor, sub-contractor, and as a member of design build team. Our firm has assembled a professional in-house management staff with decades of construction experience in all types of construction that will ensure a safe and professional implementation of a project plan

**SERVICES INCLUDE:**

- General Construction/Contract Management
- Design Build Construction
- Concrete (Foundations, Flatwork, Decorative)
